

# Starboard Enterprise

## Service Overview

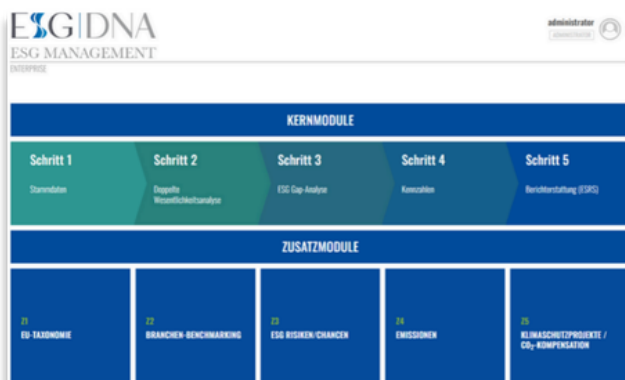

ESG?  
We take care of it.

### Starboard Enterprise Software: Developed for Enterprises

The Starboard Enterprise Software is specifically aligned with ESRS standards and supports companies and corporate groups in implementing their sustainability reporting in a structured, transparent, and regulatory-compliant manner.

#### Your Benefits

- + **ESRS-Compliant ESG Management**  
Structured implementation of complex ESG requirements
- + **Scalable Platform**  
Suitable for corporate groups and multi-entity structures
- + **Audit-Ready ESG Data Base**  
Transparent documentation for audit and reporting purposes
- + **Efficient ESG Management**  
Central platform for ESG data, analyses, and reporting

#### Starboard ESRS Features

- + **ESRS Data Structure**  
Mapping of all relevant ESG data points
- + **Group Reporting**  
Aggregation of ESG data across multiple entities
- + **ESG Scoring & Gap Analysis**  
Analysis of ESG performance and identification of improvement areas
- + **CO<sub>2</sub> Accounting & Emissions Management**
- + **Audit-Ready ESG Documentation**
- + **Final ESRS-Report**  
Industry Benchmarking, ESG Opportunity/Risk Management

**This ensures ESG management in reporting-obligated companies is implemented in a structured, scalable, and audit-proof manner.**
