

Starboard SME

Service Overview

ESG?
We take care of it.

Starboard SME Software: Developed for SMEs

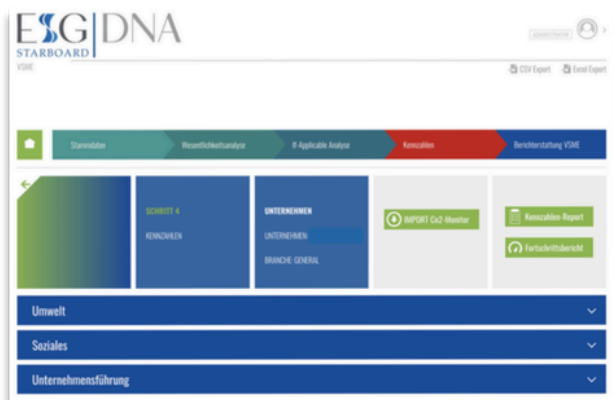

The Starboard SME Software is specifically aligned with the VSME standard and supports small and medium-sized enterprises in implementing their sustainability reporting in a simple, structured, and transparent manner.

Your Benefits

- + **Structured ESG Data Collection**
All ESG data centrally recorded and available at any time
- + **Simple Implementation of VSME Requirements**
Clear structure for ESG reporting in SMEs
- + **Efficient Collaboration**
Multiple users can work on ESG data simultaneously
- + **Future-Proof ESG Data Base**
Foundation for future reporting and customer requirements

Starboard SME Features

- + **Materiality Assessment**
Identification of relevant ESG topics
- + **ESG KPI Management**
Collection and management of all relevant KPIs
- + **CO₂ Accounting**
Calculation and monitoring of emissions
- + **Benchmarking & Analysis**
Comparison of ESG KPIs and performance development
- + **Central ESG Data Platform**
Structured ESG database for reporting and management
- + **Final VSME-Report**
In your Corporate Design

This ensures ESG management for SMEs is implemented in a simple, structured, and digital way.
